Hi Earl,

The only collateral piece we have is a historical walking guide of the area called Angels Walk Figueroa Corridor.
It's from several years back, but may work.

Thanks,
Aaron

Hello.

I would like to know if you have any form of printed publications that can provide something like walking maps, attraction brochures, etc.
Specifically in the area in and around the Figueroa corridor, something similar to brochures found in the Los Angeles Visitors Bureaus?

Pls. let me know if you do and if not, do you know of any other office or organizations that might have them... Any information would be appreciated.

Thanks,
Earl Perez
